

Bond disorder in non-collinear antiferromagnets

GRK 1621

Bond-disordered non-collinear Heisenberg antiferromagnets

$$H = \sum_{i,j} J_{ij} \mathbf{S}_i \cdot \mathbf{S}_j$$

Disordered couplings

+

Non-collinear ordering

=

We will see ..

- The lower critical dimension for bond-disordered non-collinear magnets.
- The topography of the disordered ground state in a non-collinear antiferromagnet.
